- 滴 Good carrier oils for roller bottles are fractionated coconut, jojoba and almond.
- 滴 Always do a skin “patch” test before using new essential oils.
- 滴 Start by using the lowest concentration and add more essential oils as needed.
- 滴 2-3% is the standard adult dilution.
- 滴 0.5% - 1% for sensitive skin & application on sensitive areas like face and underarms.
- 滴 3%+ is for acute, short term application like migraines and muscle soreness. Not to exceed 25%.
- 滴 Remember, a little goes a long way. The more carrier oil you use the lower the risk of irritation and sensitization.
